My-T-Mouse® Software For Windows™ - The Software That Makes Your Mouse A Mouse That Types™...  
...And A Whole Lot More!

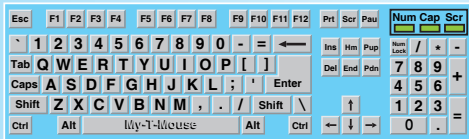

## What is My-T-Mouse?

My-T-Mouse is a powerful Windows software utility that works with ANY Windows Application by floating above all other windows, and brings unlimited power to any mouse or pointing device! My-T-Mouse is a Standard Windows Application (not a driver), and uses minimal System Resources.

- "I can see it would become indispensable for many kinds of Windows work." *Brian Livingston, InfoWorld*
- "It seems to be a dream come true!", *Handicapped User*
- "What a great tool for Corel, Ventura, and all CAD & Graphics Users." *Bev Christianson, Int'l Corel Users*
- "Excellent Software," "Easy to use," "I Love It!," "Thanks!," "Now I can Finally use a PCI!," "Great!"  
*My-T-Mouse Users*

### The World's Premier On-Screen Keyboard!

The Keyboard panel has over 200 layouts available, including International, an alphabetic ABC layout for new computer users & children, and 3 DVORAK layouts for the physically challenged. My-T-Mouse also provides ADA compliance for corporations, institutions, & government agencies. Ideal for Non-Typists! Heads-up display keeps your eyes on the screen at all times. The Edit Panel and the Numeric Keypad Panel are available as individual panels.

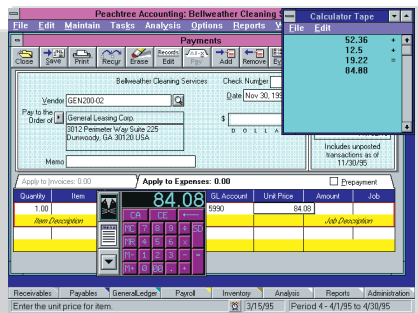

## Features & Functions

My-T-Mouse has 125 functions on 11 panels. You can have 1, 2, 5, or any combination of Panels opened, in a user selectable size, with user selectable colors. You can even assign over 60 functions to your other mouse buttons. System Information shows you Disk Free Space, Time & Date, etc. The Quick Help Panel helps New Users learn My-T-Mouse at their own pace. Dial-A-Key allows you to quickly type any keystroke without ever leaving your mouse from a single panel. My-T-Mouse transforms mouse actions into keyboard actions, and has hundreds of uses from specialized applications to short-cuts for Graphic Artists to the primary interface for Physically Disabled users, etc., etc., ... My-T-Mouse also comes with a full-featured, self-paced Tutorial.

### Pop-Up Calculator With Calculator Tape

My-T-Mouse has a 4-function Calculator with Memory that will send results into a spreadsheet or any other window by clicking on the Send button. The pop-up Calculator Tape allows you to save or print your calculations, and it is always visible! Great for Accountants and all users of accounting packages!

## And A Whole Lot More!

My-T-Mouse has its own Setup portion that allows you to configure My-T-Mouse for your needs. The Minimize to Button feature keeps My-T-Mouse readily available as a small button on your application's caption bar - click on the button to use My-T-Mouse, and then minimize to put it aside. Many more features included...

Call for information on licensing components of the My-T-Mouse software, or the IMG Software Developer's kit, which features tools for system integrators & developers.

### Unlimited Macro Panels

Unlimited Macro Panels can be created for any task, providing flexibility and ease of use. A single Click can replace hundreds of Keystrokes, allowing Users to replace repetitive tasks, and complete complex functions with a single action. The Visual aspect of My-T-Mouse macros make them intuitive to new users and advanced users alike. Macro panels can even launch applications, or automatically open when you open your favorite application!
